- 10:00 a.m. – 11:00 a.m. 17th Annual Philip S. Chen Jr., Ph.D., Distinguished Lecture on Innovation and Technology Transfer, Masur Auditorium**

17th Annual Philip S. Chen Jr., Ph.D., Distinguished Lecture on Innovation and Technology Transfer was established in 2006 by the NIH Deputy Director for Intramural Research and the NIH Office of Technology Transfer on the occasion of Dr. Chen's retirement after over 41 years of service to the NIH. The lectureship honors Dr. Chen's remarkable, diverse, and creative contributions to the NIH, especially to its Intramural Research Program and to the field of technology transfer.

Technical Vendor Association (TVA) Research Festival Vendor Show

The Technical Vendor Association (TVA) has grown from a group of vendors with more than 30 years of cumulative sales experience. Networking has been the key to their career success. As a national organization, the TVA is dedicated to the advancement and recognition of the technical sales profession. Through a large network, the TVA is committed to fulfilling its mission. The COVID-19 Pandemic impacted vendor shows and in-person networking globally. As a result, they are working hard to develop new events. Through TVA activities, members meet colleagues from the technical selling profession, as well as researchers, scientists and technicians. While establishing a network and information base that is vital to continued professional advancement, the TVA offers opportunities to interact with individuals who share interest and commitment to technical selling. The Technical Vendor Association was founded in 2023. For more information, please visit <https://technicalvendor.com>.

Thank you for attending the 2024 NIH Research Festival and your support of the NIH Intramural Research Program. We hope you will enjoy sharing and learning about the exciting research taking place at the NIH. For more information, please visit <http://researchfestival.nih.gov>.

Research Festival Committee

The 2024 NIH Research Festival Committee is chaired by the NIH Office of Intramural Research (OIR) senior staff.

Ms. Diana Gomez (OIR) is the Research Festival Coordinator.

Additional support has been provided by the NIH Library, the NIH Office of Research Services (ORS), the NIH R&W, and the Technical Vendors Association. Special thanks to David Brown (NIH R&W), Kathleen McGlaughlin (NIH Library/ORS), Angela Stubbs-Diggs (Events Management/ORS), Christopher Wanjek (OIR), and Susan Wong (NHLBI/ORS) for their planning support.
